

[Rowan Hoskyns Abrahall was elected Treasurer on April 16, 2020](#) replacing Brian Mitchell who had previously moved to the role of President of Open Source Matters, inc.

Unfortunately, personal health issues prevented Rowan from serving fully in this position. The board was able to offset the most pressing responsibilities of the role during her leave of absence.

Rowan resigned from her role as Treasurer in June of 2020. This left the role of Treasurer vacant until September 29, 2020 when [Radek Suski filled the role after his election](#).

Brian Mitchell covered the day to day operational requirements of the position with a great deal of support from the entire board during the vacancy.

Initiatives relevant to the treasury and finance are best reflected in the reports presented by other board members during this period. [Please check those reports for further information](#).
